

Lörme®

## LORME BASIC

When choosing a set of cookware, the most important things to consider are your cooking needs. Lorme BASIC line is recommended as a **first choice** for a primary set in everyday cooking. Lorme BASIC brings you the pans we consider essential for every kitchen, made of **NON STICK, CERAMICS and GRANITE** coatings, positioning Lorme BASIC line as the ideal starter set.

## LORME CLASSIC

Lorme CLASSIC line represents the essence of Lorme brand - wide assortment of kitchen utensils and accessories, made from high quality materials, modern design and colors with superior cooking features. That is why Lorme CLASSIC products have been recognized as a "best-buy" from the very beginning.

Lorme NON-STICK consists of various types and sizes of pans, baking and serving tins. PFOA FREE non-stick coating allows you to prepare food without adding oil, food will not stick to surface while preparing or serving and it will keep all essential nutritive values.

Lorme CERAMICS consists of various pans and pots which are coated by top quality non-stick ceramic coating - ILAG SWITZERLAND (high hardness, temperature and spot resistance, simple maintenance and cleaning). Healthy and totally safe for you. Economical and easy to use as well.

Lorme INDUCTION - SAVE YOUR MONEY: 50% less electricity consumption. SAVE YOUR TIME: food is much faster processed than in classic pots / pans. WELL USED ENERGY: 90% of used energy is consumed to process food, minimal waste of money and time. SAFETY AND CONVENIENCE: reduction of risk of burns and fire.

## LORME KITCHENWARE

Following our vision to deliver the best-buy products in each segment of our business, we designed and produced a wide range of kitchenware, positioning **Lorme** as the favorite kitchen assistant and first choice for many consumers – from housewives to HoReCa professionals, proving our statement that good cookware is essential for any serious cook.

Following innovative technologies in collaboration with the world leading producers of coating and cooking materials, ultimately functional with carefully defined colors, our unique range of kitchen utensils and accessories are perfect choice for all occasions. To prepare healthy food, quickly and efficiently, is our primary goal recognized by millions in many markets we operate.

Following all latest trends, **Lorme** is among the first manufacturers that introduced products designed for use on INDUCTION plates. Use of induction in food preparation not only that saves your money and increases energy efficiency, but also contributes your safety by reducing risk of burns and fire.

In addition to the dishes and kitchen utensils made of stainless steel, non-stick material (PFOA FREE), high quality tinplate), we delivered an innovative line of CERAMIC frying pans manufactured in Switzerland – by ILAG (high degree of hardness, resistance to high temperature and stains, easy cleaning and maintenance) - made possible by cutting-edge technology.

We are proud to present our NEW PREMIUM LINE made with the GRANITE coating, combining all the best inventions in our industry – scratch, abrasion and corrosion resistance with ultimate non-stick performances makes it a healthy and environment-friendly choice.

We invite you to take the tour at [www.Lorme.net](http://www.Lorme.net) and share your impressions with us!
